One day I was going fishing In Canada. We were going to Eagle Lake. We were going to stay at South Shore Lodge.

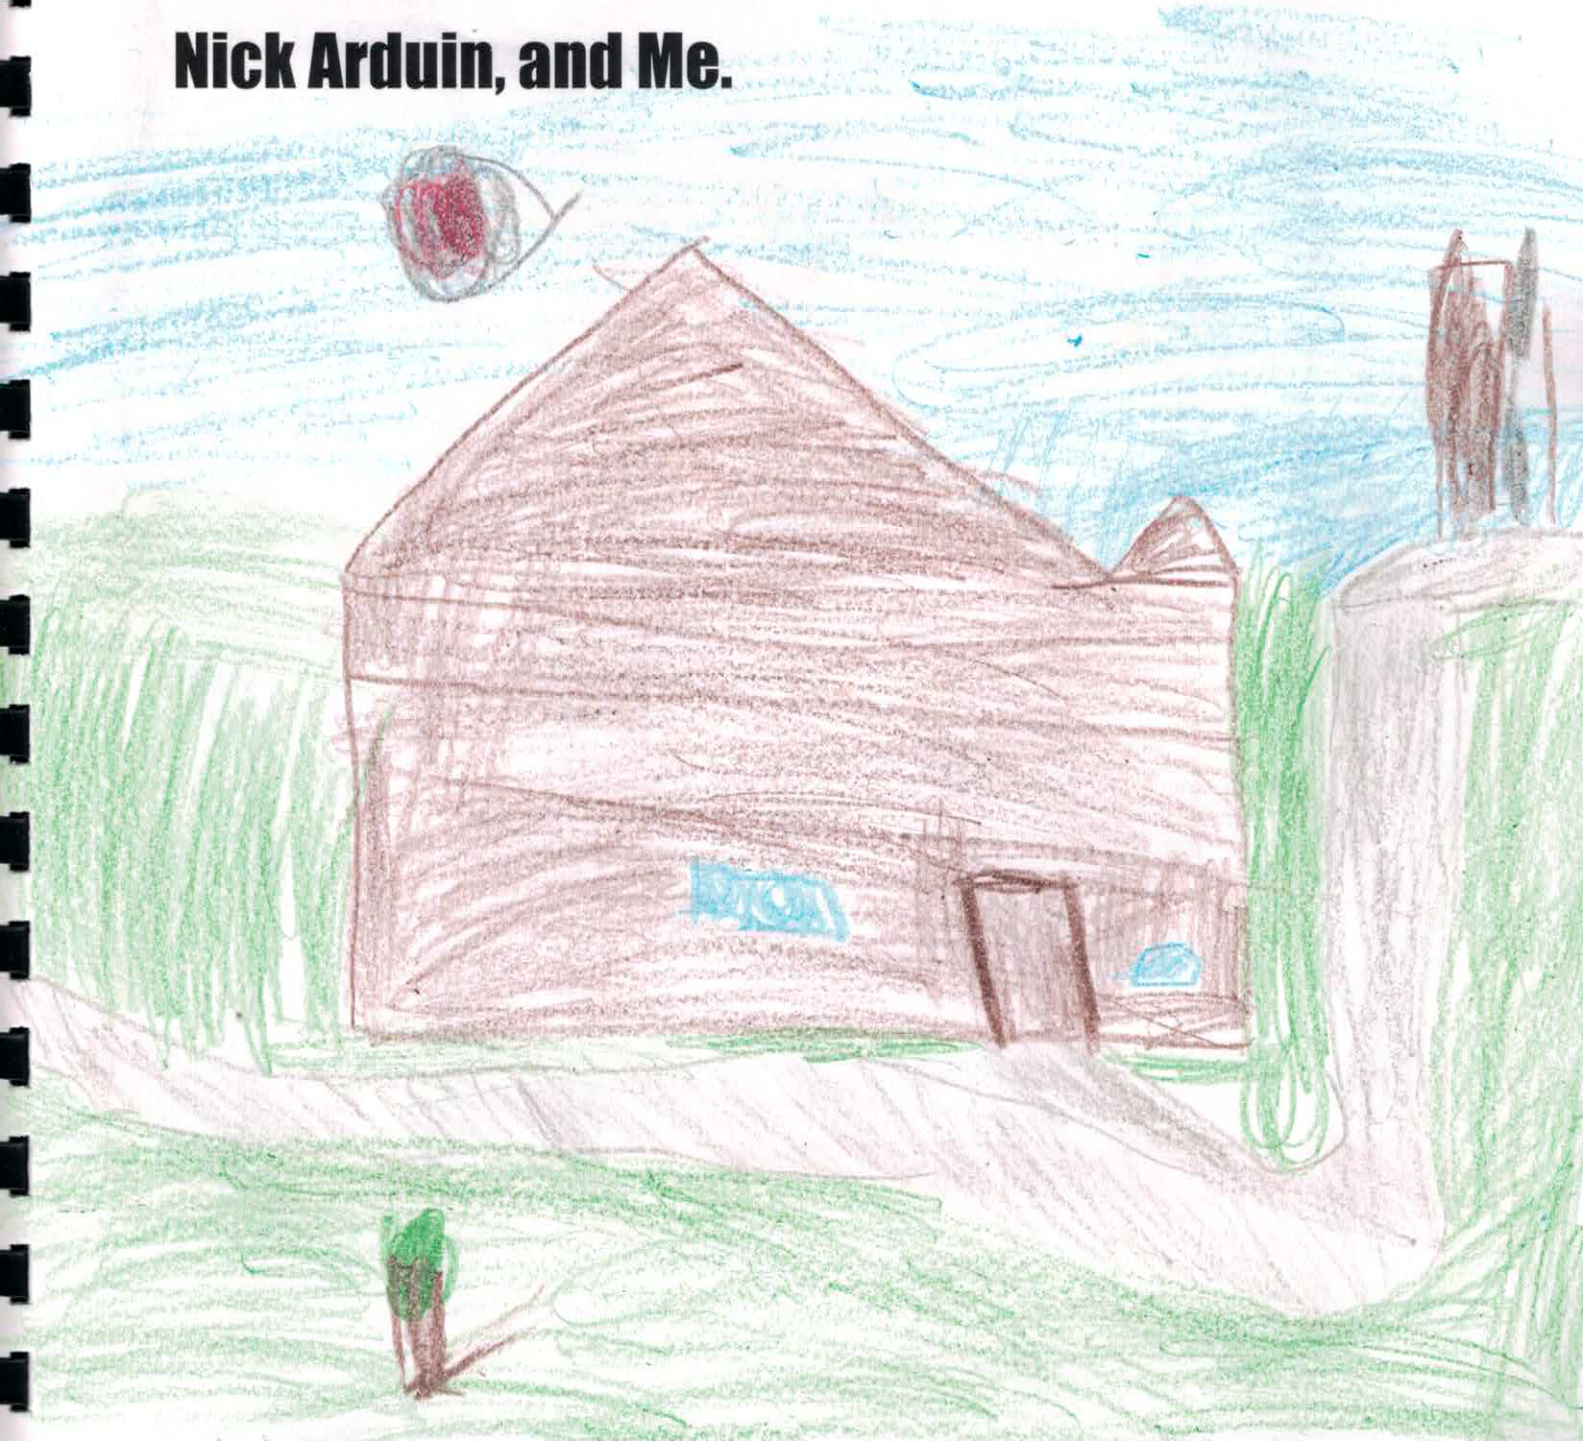

The people that were going were My Dad, Ryan, Tyler, Dawson, Tyler Bray, Nick and Rick Arduin, and Me. First we went to Nick Arduin's house to meet up with everyone at 7:40 A.M. After we meet up with everyone we started to head to Canada. It took 14 hours.

Once we got to South Shore Lodge, we unloaded everything out of the cars. There was a dock that we put everything on. Then there was a boat that came to pick us up. We put all our stuff in the boat.

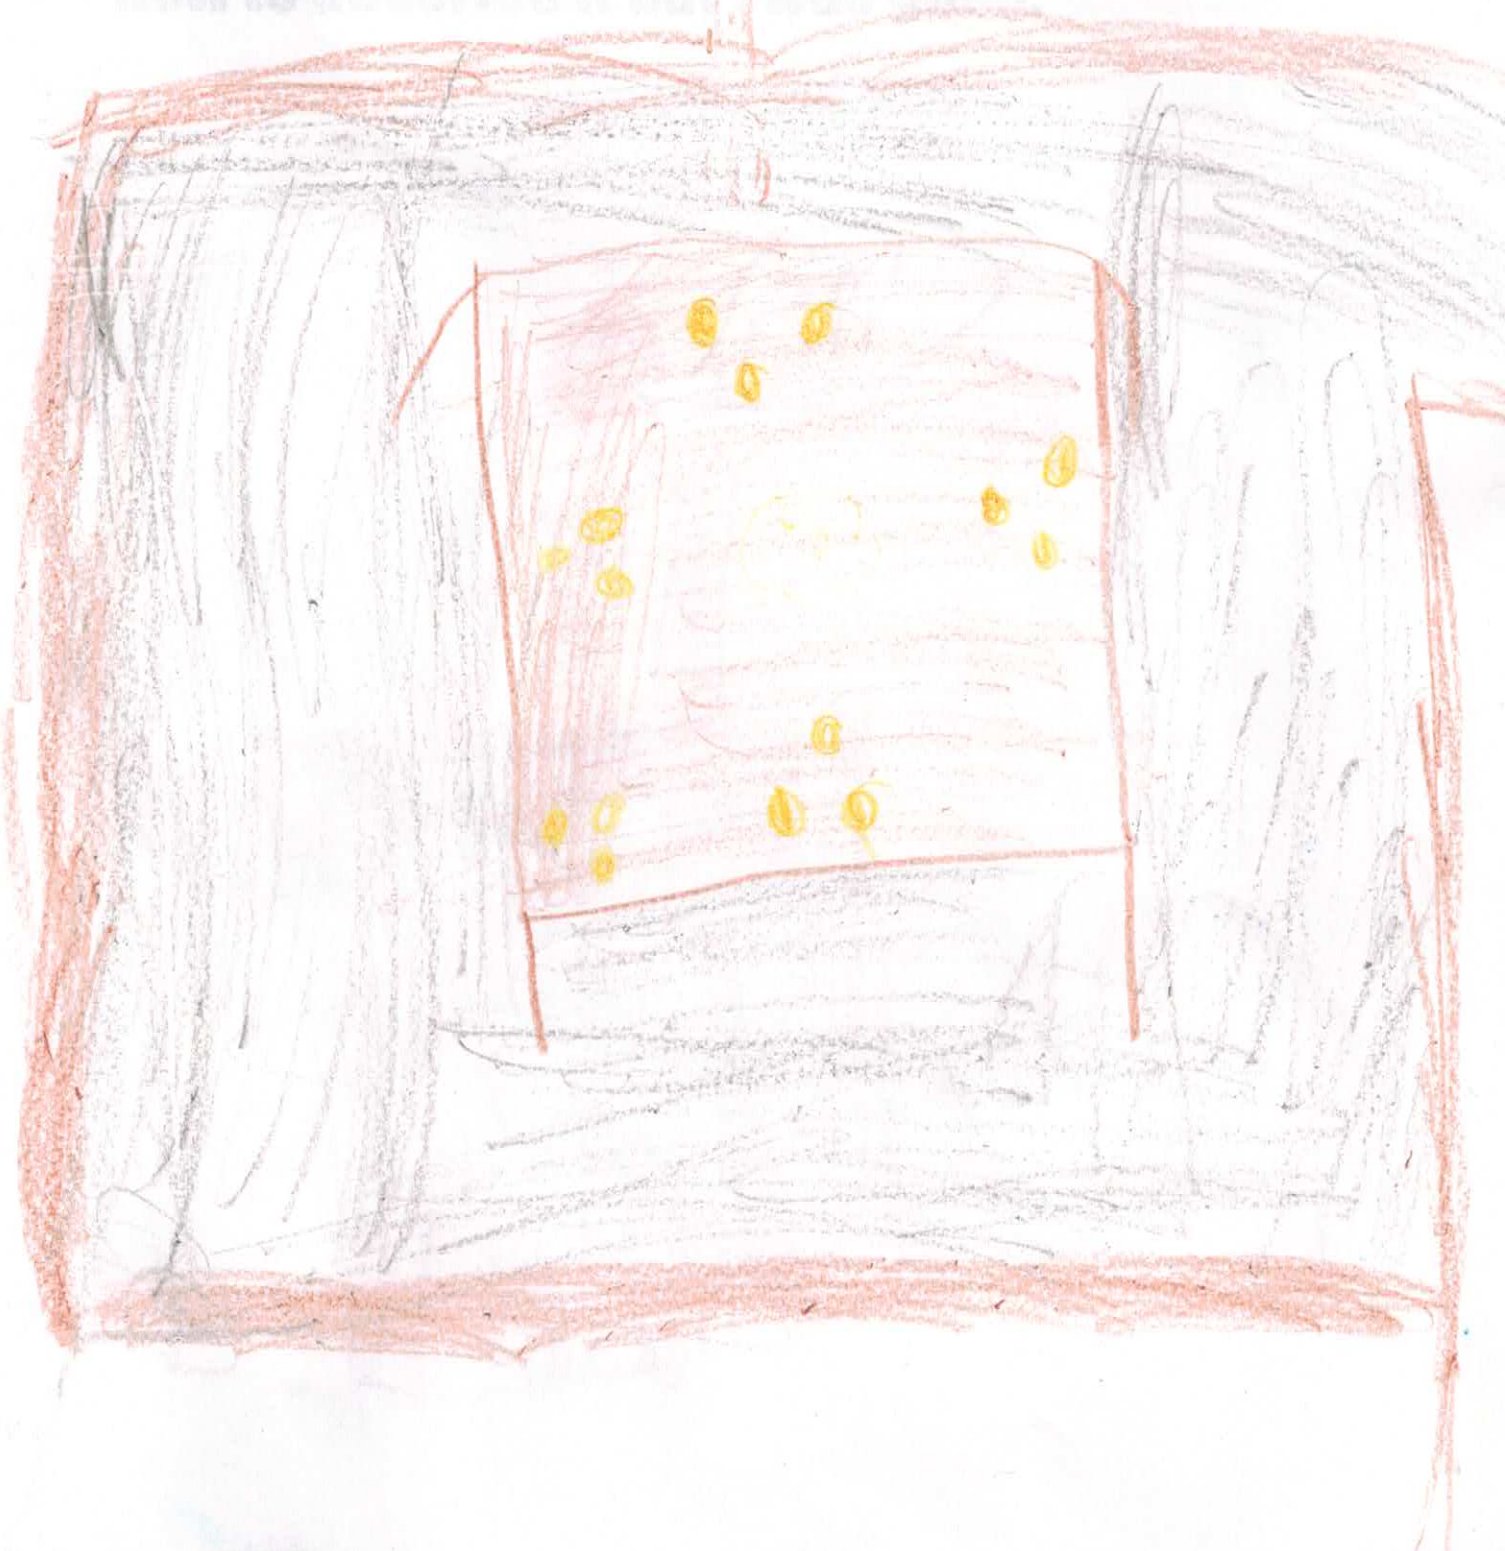

When we got to the lodge, we brought everything to the cabin. There were two cabins we were staying in. The boys Ryan, Tyler, Tyler Bray, and Dawson were in one. The other was me, my Dad, and Rick and Nick Arduin, and Me.

After we got all our stuff in are cabins, the boys in the other cabin came to our cabin, and we played LRC.

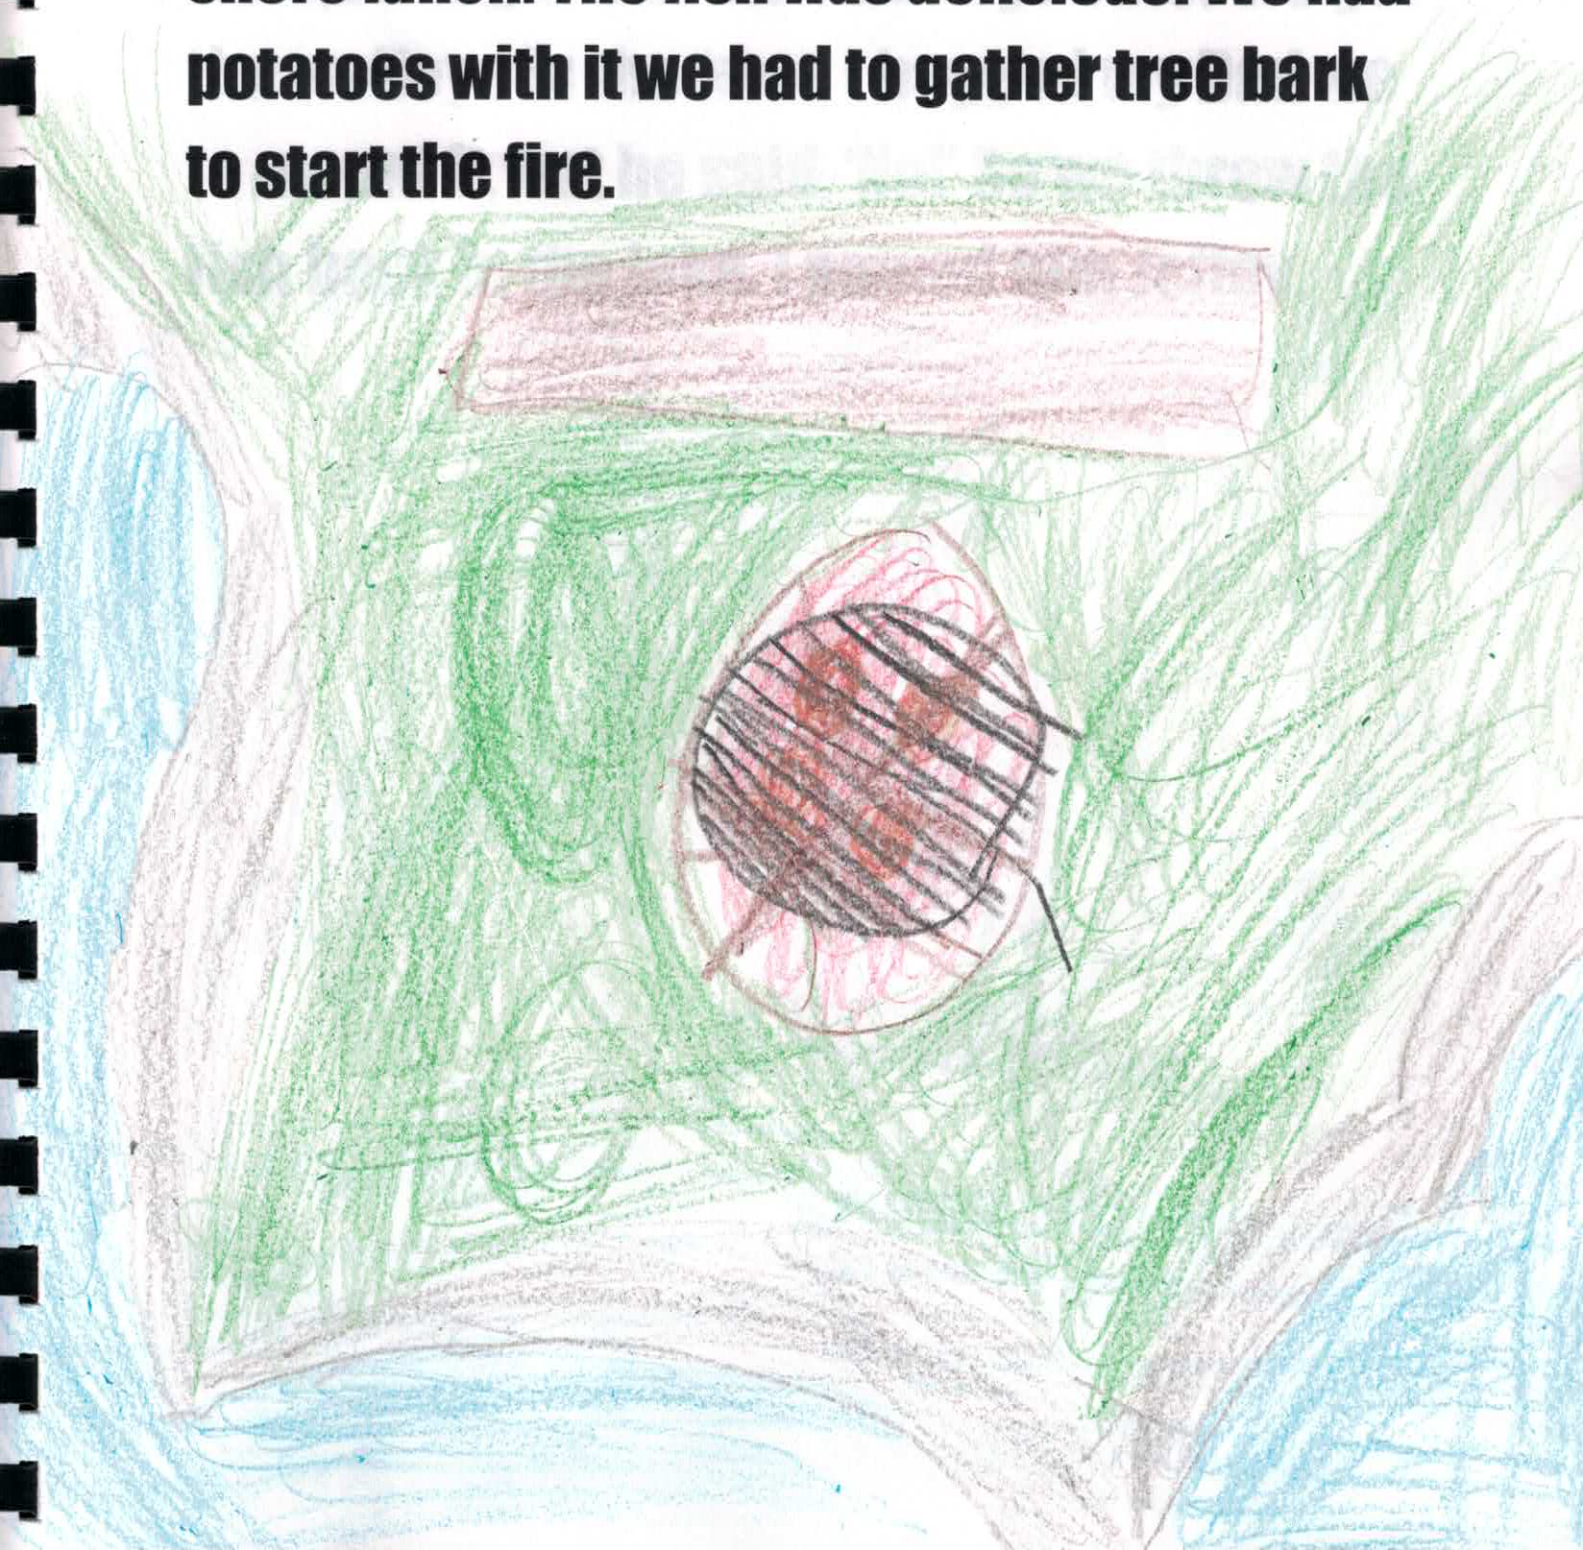

ever had I don't know how to describe it but I was good

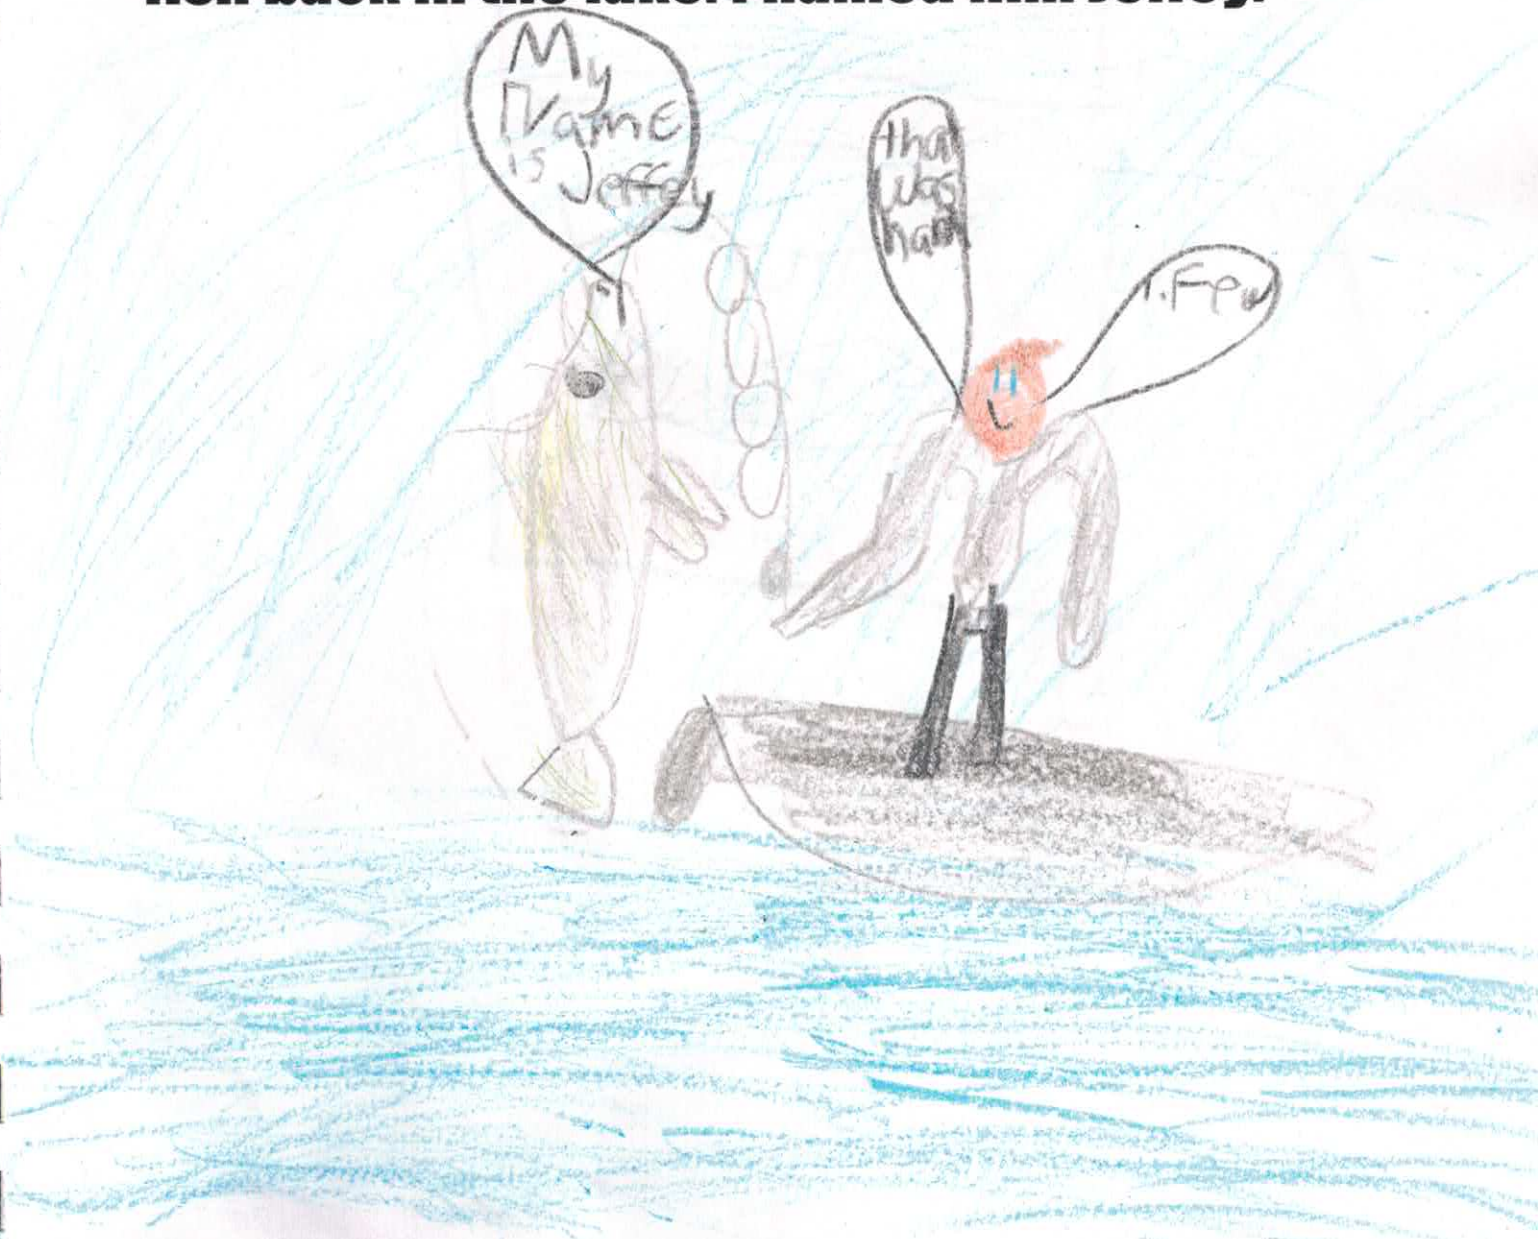

The next day, we got up, and we went to go eat breakfast in the lodge. It was probably the best breakfast I ever had I don't know how to describe it but I was good.

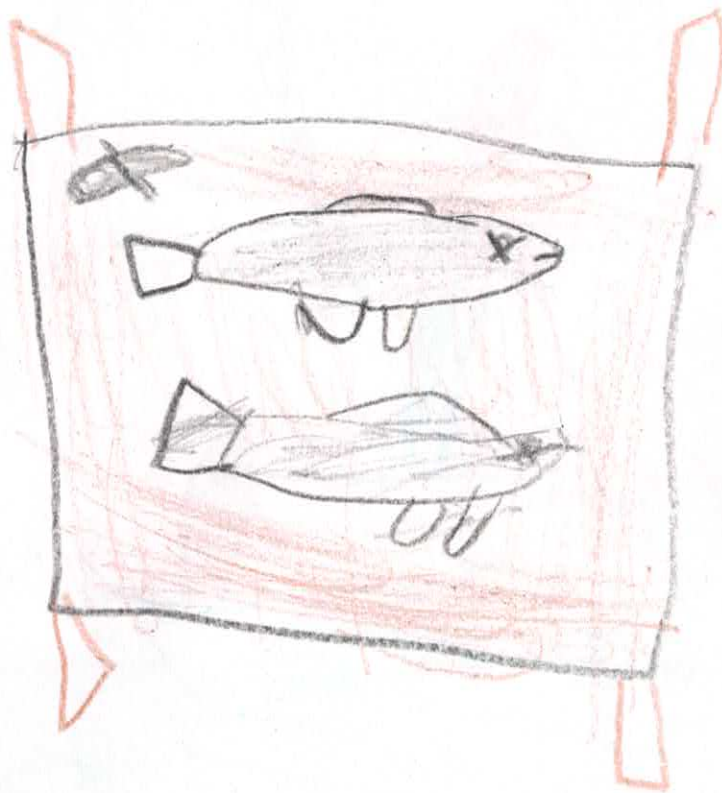

After we ate, we got all our tackle in the boat. We went out on the lake. We were catching walleyes about 11 to 17 inches for shore lunch. The fish was delicious! We had potatoes with it we had to gather tree bark to start the fire.

The next day, we got up, and ate breakfast. After breakfast, we went out on the lake and fished for a little bit. A minute later, I caught a 27 inch walleye. After we got the walleye in the boat, I begged my Dad we to mount it, but he said, 'No!' So we threw the fish back in the lake. I named him Jeffrey.

After fishing we went back to the dock and gave some fish to the people to cut them up. We waited a little bit for our supper. They probably made the best food I ever had.

The next day, my brother Ryan caught a 30 inch Northern. We thought it was a walleye. We were trolling along the bay at the time.

The next day, during fishing, there was rain pouring down. We had to run away from the rain. It was fun. A little bit later we went out to troll. It was just my Dad, Dawson, Ryan, and Me. While we were trolling we saw the start of a rainbow.

The last day, we got up and started to pack up we were going back home. After we were heading back, we got a flat tire. It took two hours to fix that, and Then we were on our way again.
